

# Craft Animals & People

Over the next few weeks you can use your supplies of toilet roll to make everything from fun gifts to animals and people.

Why not have a go at recreating your pets, friends and entire family using the medium of the toilet roll tube?

They're easy to make. Use scraps of paper and paint to decorate, and sellotape and/or glue to join.

## Top tips!

- **Keep it simple!**
- Cut out all the pieces before joining together.
- If using paint, paint each piece before sticking together.
- Draw eyes on to address labels (if you have them) making them easy to stick on.

Please send us photos of your creations!

Rabbit ears and feet

Chick wings and feet
